Projects

Portfolio Site *https://ryanbey.github.io/portfolio/*

A place to showcase my work and love for web design and development, as well as a place for future employers to get the info they need. All projects listed below and more can be found here.

Nastracks *https://nastracks.glitch.me/*

A useful site for racing fans to get information about the many different tracks NASCAR visits in its top 3 touring series.

Morssenger *https://github.com/ryanbey/Morssenger*

A team-built Android app that allows messaging with live input translation and options for message playback with audio or vibration.

Simple Trails *Visit Interactive Prototype*

A semester-long UX design project that included creating detailed personas, scenarios, storyboards, usability studies, and prototypes for an Android app.

iRacing Modern Profile *WIP*

Chrome extension that brings the iRacing.com profile page out of the 90's and into the modern day with an overhauled design and new functionality.

Employment

Store HR Representative, Broulim's Fresh Foods

JANUARY 2020 – PRESENT

• Sole hiring manager for a store of over 150 employees

• Maintained positive relationships and effective communication with all department heads and employees

• Hired over 100 new employees including onboarding, training, orientations, certifications, and evaluations

• Professionally assisted in disciplinary actions including creating improvement plans with managers and employees
